Josie had Kyle Bates review this year's Trustlands Plan. All monies are currently on track to be spent or have been spent on items that are on our plan. Items discussed were the professional and technical services, textbook and software expenditures, and hiring of ESOL aides. All are doing well and we feel strongly they are making a difference with students learning. With some money leftover, Kyle suggested hiring 2 more instructional aides to help all students. Everyone agreed this is an important need for the students and to move ahead with the hiring.
