

Centennial Middle School Community Council meeting
Tuesday, January 12, 2021, 11:00am-noon

Welcome & Getting to know you:

1. Tell us your favorite thing about winter.

DIGITAL CITIZENSHIP:

1. (Marci) Report on PTA's plan for digital citizenship videos and white ribbon week

SCHOOL SAFETY:

1. (Emily) Did safe routes *map* get updated online?
<https://www.saferoutesutahmap.com/map/school-maps/centennial-middle-school-723>
<https://centennial.provo.edu/wp-content/uploads/2017/04/safe-routes-to-school.pdf>
 - a. If so, where can we find it?
 - b. How do we make sure parents and students know it is there?
2. In answer to Katie's question from December, they will NOT be issuing lockers for kids to put coats in.
3. Just a reminder, if we want to continue pursuing a crosswalk for Canyon Rd, we need to request it before Nov 1st each year so it can be included in the city's annual budget. The school board is working to make this process go more smoothly.
 - a. From a school board member newsletter: "School community councils will send in their safe routes plans and any requests by the end of November each year. Then the district will send the requests on to the city, who then will study the issues. They will get back to the district and schools by March to let us know if they can do anything about the requests. This process gives the city enough time to then add any projects to their budget for the next fiscal year."
 - b. In the meantime, perhaps we need to provide some sort of review for students who walk so they know the safest routes to take -- or even how to cross a street safely/correctly?

TRUST LANDS FUNDS:

1. Do we have any teacher mini-grant requests that we need to review?
2. LAST YEAR'S PLAN: The state is still discouraging additional carryover amounts this year so we need to reallocate some of the funds that won't be spent as originally planned.
 - a. If the local school board feels the reason for carry-over is appropriate, the school can carryover funds. We are required to report any carryover that is larger than 10-20%. The reason will be very important if it goes higher than the allotted amount.
3. NEXT YEAR'S PLAN:
 - . (Mr. Bates) Review student survey data (presentation from the district?)
 - a. What academic remediation will be needed?
 - i. How can we provide this?
 1. academic jump starts?
 2. Andrea's question about possibly using video equipment to show class content for kids that have to stay home
 - b. What mental/social impacts need to be addressed?
 - . How can we help?
 1. after school programs restarting?
 2. Katie's suggestion from our last meeting about short PSAs that we could show to students outside of school hours to help them cope with changes and struggles.

Meetings are the second Tuesday of each month. So the next meeting will be Tuesday, February 9, 11-noon.
